## SPECIALTY SUMMARY

(AFOCD, Changed 30 APR 16 * Effective 9 Jul 15)

Operates cyberspace weapons systems, employs cyberspace capabilities, and commands crews to accomplish cyberspace, training, and other missions.

## DUTIES AND RESPONSIBILITIES:

- Plans and prepares for mission. Reviews mission tasking, intelligence, terrain and weather information. Supervises mission planning, preparation and crew briefing/debriefing. Ensures equipment and crew are mission ready prior to execution/deployment
- Operates weapons system(s) and commands crew. Performs, supervises, or directs weapons system employment and associated crew activities
- Conducts or supervises training of crewmembers. Ensures operational readiness of crew by conducting or supervising mission specific training
- Translates operational requirements into architectural and technical solutions. Works with commanders to deliver complete capabilities that include technical and procedural components. Researches or oversees research of technologies and advises commanders on associated risks and mitigation factors in conjunction with meeting requirements
- Directs extension, employment, reconfiguration, adaptation and creation of portions of cyberspace to assure mission success for combatant commanders. This includes both deliberate and crisis action scenarios
- Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty

## SPECIALTY QUALIFICATIONS

- **KNOWLEDGE:** Knowledge of the following is mandatory: electronics theory, information technology, telecommunications and supervisory and control systems including cryptography,

vulnerability assessment and exploitation techniques. Additionally knowledge will include operational planning, governing cyberspace operations directives, procedures and tactics

- **EDUCATION:** For entry into this specialty
  The vast majority of 17D officers will possess computer, science, mathematics, technical, analytical and/or problem solving skills developed in the degree programs identified in see Appendix A, Paragraph 2, 17D CIP Education Matrix
- **TRAINING:** For award of AFSC 17D2X, completion of Undergraduate Cyberspace Training (UCT) and mission qualification training in suffix specific area.
- **OTHER:** For upgrade to AFSCs 17D2X/3X, unit commander determines proficiency based on performance, experience and completion of minimum training requirements.3.5. For award and retention of 17DX, specialty requires routine access to Top Secret or similar environment and completion of a current Single Scoped Background Investigation (SSBI) according to AFI 31-501, Personnel Security Program Management
- NOTE: Award of the entry level without a completed SSBI is authorized provided an interim Top Secret clearance has been granted according to AFI 31-501.
