

ATTENTION

All Health Care Workers

If you answer YES to any of the questions below, you may be eligible to participate in NYS DOH COVID-19 Antibody Sampling and Testing.

Are you a health care worker who worked directly with patients or in a patient care area and . . .

- **Was confirmed to have COVID-19?**
- **Was suspected to have COVID-19 and was symptomatic, but never tested?**
- **May have been exposed to COVID-19, but remained asymptomatic?**

Check your email. You may have received a request to be tested for COVID-19 antibodies.

[Hospital name] is working with the NYS DOH Wadsworth Center to provide access to Antibody Sampling and Testing. The process is less than 15 minutes and requires only a finger stick.
