B of the 50th Pa. in the front, and Companys A & D of the 8th Mich. on the left. The Rebel Battery kept up their fire from their Artillery and Infantry on the 8th Mich until the 48th got within 100 yds of their guns, when they discovered our battalion and changed their fire on us. The grape and Cannister fell thick and fast. And the General seeing their impregnable position ordered us to retreat. After being exposed to their fire for near one hour we had but 2 wounded. They was masked in the woods. About this time the 79th had drove the Rebels from their Battery by the Ferry. As they had not men enough to hold it, we were ordered to their assistance. After having a brief skirmish with them, the loss on our side was 5 killed and about 12 wounded, while the Rebel loss must have been about 150 killed and as many wounded. We gave up the pursuit having accomplished all that we expected to—entirely dislodging them from the Ferry. At sun down the Rebels sent in a flag of truce for the privilege of taking their dead and wounded off the field. It was granted by General Stevens. Stayed all night on the Field. Thus ended a happy New Years Day.

At 10 AM their Flag was shot away by a shell from Tibee, after which it was placed on a poll on the ramparts and only six feet above the walls. At 3 PM it was shot away the 2nd time, when it was replaced again on the same poll. The fight continued with increasing fury until dark. The Gun Boats did not fire during the day. At five minutes of 9 AM a shell from Tibee cut away their Flag the third time, but was soon replaced. The firing was continued with great accuracy from our side. At 10 AM the Battery of 3 large mortars on Long Island opened on the Fort and was speedily returned from the Fort. At 1 1/2 PM the Fort became breach on the Tibee front of the Fort. Their Magazine was almost tore away. And they in danger of being blown up. At 2 o'clock PM the Rebel Flag was waved 3 times and then lowered and the white flag was hoisted and the Fort surrendered to our men. The Bombardment closed having continued 34 hours. Our troops was soon to the Fort. The Old Flag of 76 was soon hoisted and its golden folds unfurled to the breeze and floated triumphant over the Walls of the Doomed Fortress. The Troops hailed its appearance with gladdened hearts and felt amply repaid for all their hardships and exposures. One of the Blockaders soon came up to the Fort. They had been on Picket up the river and had got a pass for 24 hours to go to Elba Island a Hog Hunting. Their was four of them started. He set one of them ashore on the upper end of the island to find tracks while they rowed further down. Thus the Cpl took advantage of the time and stole the other two away. They are both natives of Savannah and rank Secessionists. They will be held as Prisoners of War. The Cpl was from Maine. He had been teaching school in Georgia and had been forced into the service about 3 months. They belonged to the 47th Georgia Crackers. He played them a Yankee Trick for once. B. was buried at 2 o’clock PM. The whole Battalion attended in procession to pay their honors to the first to fall in our Regt by the balls from the Rebels. Had orders to prepare to go on an expedition with 10 days rations, 3 days cooked and 7 raw, one days fresh bread and 9 of hard tack, and to be ready at 3 o’clock in the morning. Comps A, D, E, F, G and H to embark on the Planter for Hilton Head where we was to join the expedition. I was up all night getting the Provisions ready to start.

Wednesday, October 22, 1862

At 2 o’clock AM the Capt waked the Col and told him that the fleet had gone and left him. That the signal officer had missed the signal. We then put all steam on. The Planter started on, went up the Broad River. At 3 AM we began to overtake the Fleet. At 4½ AM we came to the Gun Boats which was at anchor. At daylight we started, the 6 gun boats leading and soon arrived at the mouth of the Coosawatchie River and all but the 48th disembarked at Boyds Landin at the mouth of the river. They at once took up the line of march on the North side of the river to attack the forces on the railroad. We then went up the river to within 2 miles of the railroad bridge where the boats grounded. We then landed, deployed our skirmishers and formed a line of march, the brass Howitzer in the centre. We marched to within 300 yards of the railroad when a train loaded with reinforcements came along. We fired into it and killed several and many jumped off and skedaddled. We then rushed on to the track, tore it up and cut the telegraph wires. Caught one prisoner, colors of the Whipple Swamp Guards, and many guns. We then found that the Rebels was in force at the Bridge and that they were closing in on our rear. We was all this time engaging their cavalry and killed several of them. We then withdrew and in a good order to the Boat and commenced to embark, but before we was all on board the Rebels came up and opened fire on us. We at once returned it not only with our Infantry but Artillery. They stood their ground nobly for a while, but they had to retreat the grape and canister was so thick. We shelled them until they had got entirely out of range. They did no damage to the 48th. Lieut Blanding of the 3rd R.I. was mortally wounded in the right side. We then dropped down to the boats, having accomplished more than the Gen. expected of us. The forces under Gen. Brannan drove the forces under command of Beauregard 4 miles to the Turnpike Bridge which crosses the Pocitaligo one mile below the railroad bridge. The Rebels then burned the bridge so that our forces could not cross the river. They then fell back and tried to cut us off with the reinforcements which was then coming up to their assistance they numbered some 10,000 in all. So a brisk battle then began and for some time both sides held their ground and the men was being slaughtered like sheep. General Brannan ordered the 76th Pennsylvania and the 7th Connecticut to charge on them. With the Yankee yell they broke the Rebel ranks and forced their way through. Then retreated to the Landing under the cover of our Gun Boats. Our loss was heavy, about 500 killed and wounded. They would have been cut off if we had not drawn off their left wing. The Flora was sent to the Head in the Evening with a load of wounded. The Regts encamped out in the field.

At 7 we fell in and marched to the General Head Quarters where we found the 6th and 7th Ct. and 3rd N.H. embarking in lances with ears muffled, the 76th Pa and 9th Maine. The first three moved off and the order for us to embark was countermanded and the other Regts was called back and we was ordered to go to the other end of the Island and wait further orders. We had scarcely arrived before we were ordered back to Camp where we arrived at 3 ½ AM at night. Wrote to M. E. Baldwin.

Thursday, July 9, 1863 Got to Camp at 3 ½ AM almost tired out, being in the woods all the time. I got up at 8 AM and got breakfast and went out and found 4 of the Monitors out at the mouth of Charleston Harbour and about 15 large gun boats. Four Transports came in to the lower dock with Troops on board. Four more large steamers came in to the Blockade Fleet in the afternoon. The masts were taken down on the Ironsides ready for action. Everything ordered to be ready for an attack tonight. We are to march again at dark to cross Morris Island. Had a heavy shower in the Evening. The troops were all on a move again. At sundown we fell in line and formed on the left of Strongs Brigade on the Beach. Several of the other Regts marched up to the Batteries to unmask them during the night. We marched over to Gen Strong Headquarters and began to embark in lances and surf boats. The 6th Ct was first, the 7th Ct next. The 3rd N. H. next, the 76th Pa, next; the 9th Maine and the 48th last. We never got embarked until 2 AM. We then started after the rest.

Friday, July 10, 1863 At 3 AM we came up with the other boats near the end of Morris Island and just through the obstructions. We laid there until sun rise when our Batteries opened on the Batteries on Morris Island at 5 ¼ AM. The Rebs were all asleep and when the first Gun opened the van they soon beat the reveille and beat to quarters, but were not there until we had fired about 5 rounds. Then they began to return it all along their lines. We were close under our Battery and under the principle part of the fire.

We laid under the bank until 6 ½ AM when we fell in line, the 48th to the rear. We started up towards the Rebel Batteries. Gen Strong ordered the Colors to be hoisted on the Boats and as soon as they saw the flags they directed their fire on us in the small boats. Our Batteries
kept up a murderous fire on them all the time. At 8 ¼ we were ordered to land and charge on them. The 7th Ct landed and deployed out towards the Batteries on a double quick. The 6th Ct. was then ordered to land but they made but little effort. Then the 3rd N. H. was ordered out but they did not hurry. Then he ordered out the 48th and in 5 minutes our four Cos. was in line and we started out on a double quick to protect the 7th Ct. We moved up splendidly and got to the entrenchments and found the Secesh was advancing on us.

We opened a murderous fire on them and the 3rd N. H. came up. The Rebs skedaddled for their Batteries and they was followed by our Regt. We had 6 men wounded in Co. D. and Capt Lent was killed and near 40 wounded in our 4 Companies. The 3rd N. H. then came up to our support and opened a volley on them and they broke and left their Rifle Pitts and skedaddled for their Batteries. The 6th Ct. then came up and followed close after them. They left all of their lower Batteries and retreated to Fort Wagner.

We all advanced and soon occupied their Batteries up to Wagner capturing 7 guns and 5 mortars beside 4 stands of Colors and near 300 prisoners. We wounded and killed near 200 of them. We had a most desperate fight for ½ an hour. We were all jubilant over our successes. We then moved up and got so near to the Rebs that they began to shell us from Wagner. But they done us no damage. The 4 Monitors came up and began to shell them but soon withdrew. We put up for the night in the Camp of the 21st S. C. V. The Rebs kept up their shelling all night.

Saturday, July 11, 1863 At daylight the 7th Ct and 76th Pa was ordered to march on Fort Wagner with the 9th Maine to support them. They moved up splendidly until they got to the moat when the Rebs opened on them with grape and cannister and infantry from their Rifle Pits. The first volley the 9th Maine turned and run leaving the 6th and 7th to stand the blount and they done it too. Yet they was so descimated that they was repulsed after getting on the Ramparts. They were cut nearly to pieces and had to retreat which they done nobly. The Rebs did not follow. They kept shelling us all day. Our monitors ran up and shelled them from 10 to 1 PM then withdrew. Our forces were moving the siege pieces over from Folly Island to lay siege to their Batteries. Capt Lent and Tommy McDowell was buried. Our gun boats shelled Sionville on James Island and entirely destroyed the place. Terry's forces were their with the Negro Regts. Another Monitor came in from the Head. Our wounded were sent to the Head. The Rebs threw shells at us all night, but done no harm. Our men at work all night on their new Battery near Wagner.
General Hospital

Fort Schuyler August 7, 1863

Dear Father

I have been looking for an answer from you since Tuesday last but up to this hour none has arrived. Consequently I have been disappointed in hearing from you yet hope it will soon arrive. My wounds are recovering very fast, and in fact the Doctors and all have been surprised at the great amazement which has seemed to follow. Yet the wounds are very dangerous and I am far from being out of danger.

My wounds have never hurt me much since I have been wounded and the patience with which I have born it throughout has been a matter of surprise to the many Doctors by which I have been surrounded.

I am improving now very fast in strength and I can get out alone if the necessity of the case demands it. I don’t think I shall be able to come home before the last of September which will be in good mellon time. I may however be able to come before. I have good attendance here. They mostly give us mush and milk or milk without the mush. We some days get pudding and today we have had chicken. This I call Northern Hospital.

(He can’t keep awake to dictate any more for the present. He feels very lonesome and wishes so much some or all of you could come and see him. He now says don’t forget to bring me some apples, oranges and peaches.) My best respects to all.

J. G. Abbott

P.S. Say to the people of Mays Landing that I died at my post. When I joined the Army I was willing to die for my country, and to prove my devotion to the flag. It demanded my life which I willingly give.
