## Chapter 2 Reportable Incidents

### 2-1. Policy

*a.* Those incidents listed in paragraphs 2-2 and 2-3 are reportable to HQDA as Category 1 and 2 serious incidents, respectively. The lists are not all inclusive. Commanders should report any incident that might concern HQDA as a serious incident, regardless of whether it is specifically listed in paragraphs 2-2 and 2-3. In determining whether an incident is of concern to HQDA, the following factors should be considered: severity of the incident, potential for adverse publicity, potential consequences of the incident, whether or not the incident is reportable under other reporting systems, and effect of the incident on readiness or the perception of readiness. In cases of doubt, report the incident.

*b.* Submission of a SIR will not be delayed due to incomplete information. All pertinent information known at the time of SIR submission will be included. Additional required information will be provided in a subsequent add-on report.

*c.* Those incidents listed in paragraphs 2-2 and 2-3 occurring on Army installations and facilities are clearly reportable. Such incidents occurring off the installation may be reportable based on the degree of Army interest and involvement. Any incident where a soldier (or a command sponsored family member or DA civilian employee outside the United States) is the subject or victim of a serious incident is reportable no matter where it occurs. Incidents where a family member or DA civilian employee is the subject or victim of a similar incident off post in the United States is not reportable, absent other connections to the Army.

*d.* On occasion, HQDA, Provost Marshal General (PMG) may direct reporting of incidents or crimes that are not normally reportable. In these instances, IMA Region, MACOM, and installation commanders will be notified by message of specific requirements and time periods for reporting.

### **3–2. Time requirements and means of reporting**

a. *Category 1 Serious Incident.* Category 1 serious incidents will be reported by telephone to the Army Watch immediately upon discovery or notification at the installation level. The telephonic report will be in the format in Figure 3–1. It will be followed by a written report, preferably by electronic mail or if electronic mail is not available, by electronic message, to OPMG (DAPM–OPS) and the Army Watch within 12 hours of discovery or notification.
