Information identified in the "Division of Military and Naval Affairs – Workplace Violence Risk Assessment Checklist" and "Division of Military and Naval Affairs – Workplace Violence Risk Assessment Results" will be used to evaluate and determine necessary remedial actions. Management is responsible for the implementation of appropriate recommendation(s).

vii. If management and the AER are unable to reach consensus regarding the necessary actions that come from the risk evaluation, concerns will be referred to the Director, MNHS and AER for review. In cases where there is an allegation of a serious violation, the issue will also be brought to the immediate attention of DMNA Legal Directorate;

ix. The reporting employee can contact the WVPP Coordinator at (518)786-4830 to verify that the report was filed by management within the timeframe indicated.

x. If the incident is deemed critical, the management staff person shall follow the departments' guidance on dealing with critical incidents.

xi. Information will be kept confidential to the extent possible.

c. If, following a referral of such matter to the employee's supervisor and after a reasonable opportunity to correct such activity, policy or practice, the matter has not been resolved and the employee and/or AER still believes a serious violation of a workplace violence prevention program remains, or that an imminent danger of serious injury or death exists, the employee may request an inspection of the worksite by notification to the Commissioner of the New York State Department of Labor.

The notice and request must be in writing, must specifically describe the reason for the request for inspection and must be signed by the employee or his/her union representative.
