

Feeder Dam

Friend Beth

I did not receive your letter
untill Saturday last about seven I
have asked the Bosses if they wanted more
hand they say when they commence its
saw nights that they will give you a
chance if you are here I tried to git you
a chance on our mill when it first started
but he said there wer so many of his old
hands coming back that he should have
more than he should want at first they
will start nights in 2 or 3 weeks he told
John that he might have a chance if he was
here they are going to start next monday
tell John to be here if he can if not to come
next day Beth you come over with him and
I should not wonder if you could git a chance
for herself ever so they all come on when the mill
starts and if you are here if there is necessary you
will be here on hand at least it will not hurt you
to come over I suppose you want to git to work

now I shall expect to see you and John here
next Sunday or before if you should get this
letter if John is not at home you see him so he
he will be here Sarah sends her respects to
your Mother
