

NEWLY COMMISSIONED OFFICER VACANCY ANNOUNCEMENT

**NEW YORK AIR NATIONAL GUARD
174TH ATTACK WING
6001 EAST MOLLOY ROAD
SYRACUSE, NEW YORK 13211-7099**

ANNOUNCEMENT #: FY 21-04

POSTING DATE: 3 Nov 2020

CLOSING DATE: 3 Dec 2020

UNIT: 174th Attack Wing/ 152 Air Intelligence Squadron

AFSC: 14N3

**POSITION TITLE: Intelligence Officer
New Commission (14N)
One Position**

AREA OF CONSIDERATION: Nationwide
All candidates may apply who meet the basic qualification for this position and who are eligible for membership in the NYANG

SPECIALTY SUMMARY

(As outlined in AFOCD)

Leads and performs intelligence activities across the full range of military operations supporting the Air Force's Service Core Function (SCF) of Global Integrated Intelligence, Surveillance and Reconnaissance (ISR). The Air Force conducts global integrated ISR operations through a five-phase process commonly known by its acronym, PCPAD: planning and direction; collection; processing and exploitation; analysis and production; and dissemination. Additionally, ISR professionals conduct assessment, evaluation, and feedback throughout each phase. Air Force intelligence officers lead Airmen through the PCPAD process across four main areas, also known as functional competencies: Analysis, Collection, Targeting, and Sensing Grid Activities. To execute these functional competencies intelligence officers utilize subject matter expertise in the six intelligence disciplines of geospatial intelligence (GEOINT), human intelligence (HUMINT), measurement and signature intelligence (MASINT), open source intelligence (OSINT), signals intelligence (SIGINT), and technical intelligence (TECHINT); utilize professional tradecraft to include assessment, counterdrug, counter proliferation, counterterrorism, current intelligence, general military intelligence, indications and warning, irregular warfare and target intelligence; and integrate thoroughly within cross functional capabilities, missions, and organizations to include airborne ISR, the Air Operations Center (AOC), the Air Support Operations Center (ASOC), cyberspace ISR, the Distributed Common Ground Station (DCGS), flying unit level support, force protection, information operations, space, and special operations forces (SOF). Finally, intelligence officers perform ISR enterprise management/staff functions to include acquisition, career broadening, doctrine, education and training, financial management, human capital/talent management, information technology, modeling and simulation, policy, research and technology, security, and strategy.

QUALIFICATIONS AND SELECTION FACTORS

Selection for this position will be made without regard to race, religion, color, creed, gender or national origin. Applications are subject to review by the FSS and as mandatory requirements are met, as outlined in applicable regulations, applicants must meet an Officer Screening and Interviewing Board (OSIB). The requirements and qualifications prescribed in this announcement are minimum for nomination for appointment consideration. Appointment is not assured merely by meeting these requirements. Persons considered must further qualify with requirements outlined in AFI 36-2005.

KNOWLEDGE:

-Knowledge is mandatory of intelligence fundamentals, security, analysis, communications skills, the intelligence disciplines, the intelligence community, ISR information systems, research sources and methods, the presentation of friendly forces, friendly weapons systems, adversary capabilities, ISR operations, targeting, integration, and sensing grid activities.

EXPERIENCE:

- The following experience is mandatory for award of the AFSC indicated:
- 14N3. Complete a minimum of 36 months performing intelligence functions.

EDUCATION:

- For entry education requirements see [Appendix A, 14N CIP Education Matrix](#).

DUTIES AND RESPONSIBILITIES:

- Directs intelligence activities. Directs ISR activities and organizations, and establishes goals and objectives. Reviews requirements for objectives and relative priorities. Serves as the commander's senior intelligence advisor. Directs preparation of intelligence budget estimates and financial plans. Implements standardization, evaluation, and training programs, and monitors compliance.
- Develops intelligence plans and policies. Evaluates impact of legislative action, executive orders, regulations, directives, and management decisions. Integrates intelligence activities into plans and programs. Develops and implements intelligence operations and applications policies, plans, concepts, systems, and orders for the intelligence disciplines, professional tradecraft, and integration with cross functional capabilities. Conducts force development, management and structure planning.
- Manages and coordinates intelligence activities. Confers with government, business, professional, scientific, and other nations' organizations to provide support, exchange ideas, participate in studies, and coordinate on proposals and findings. Manages intelligence responsibilities of the Department of Defense Planning, Programming, and Budgeting System. Coordinates with personnel, materiel, planning, programming, and operational functions on allocation of resources, availability of funds, and preparation and implementation of operational plans. Supports weapon system acquisition.
- Produces timely and accurate fused intelligence analysis. Uses structured analytical techniques to convert processed information into finished intelligence through the integration, evaluation, analysis, and interpretation of all-source data and the preparation of intelligence products in support of known or anticipated user requirements. Produces intelligence from the information gathered by the collection capabilities assigned or attached to the joint force and from the refinement and compilation of intelligence received from subordinate units and external organizations. Integrates, evaluates, analyzes, and interprets all processed information to create products that will satisfy the commander's priority intelligence requirements (PIRs) and requests for information (RFIs).
- Conducts collection and ISR operations. Executes collection management by converting intelligence requirements into collection requirements, establishing priorities, tasking or coordinating with appropriate collection sources or agencies, monitoring results, and re-tasking, as required. Conducts collection operations by directing, scheduling, and controlling specific collection platforms, sensors and HUMINT sources to include the physical operation of airborne systems (both manned and remotely piloted), space-based systems, cyber, non-traditional ISR and HUMINT sources as well as near real time (NRT) coordination and control. Performs processing, exploitation, and dissemination by converting raw collection into forms that can be readily used by commanders, decision makers at all levels, intelligence analysts and other consumers.
- Employs multi-domain sensing grid activities. Performs activities such as collection operations (sensing), analysis (identify and attribute), delivering information to customers, and collaborating with partners (sharing). Understands cloud technology, machine intelligence, and big data analytics combined with critical thinking skills to accelerate intelligence activities in a fast-paced, data-intensive environment where Airmen act as both producers and consumers of information. Understands how to operate within a collaborative sensing grid and use a common data environment to enable human-machine teaming and empower ISR Airmen to be more effective in solving problems and delivering time-dominant intelligence.
- Performs targeting functions. Performs targeting functions to include kinetic and non-kinetic target development, weaponeering, precision point mensuration (PPM), force application, execution planning, and combat assessment. Selects and prioritizes targets and matches appropriate actions to those targets to create specific desired effects that achieve objectives, taking account of operational requirements and capabilities. Conducts analysis of enemy personnel, units, disposition, facilities, systems, and nodes relative to the mission, objectives, and the capabilities at the Joint Force Commander's disposal, to identify and nominate specific centers of gravity (COG) and high-value targets (HVT) that, if exploited in a systematic manner, will create the desired effects and support accomplishment of the commander's objectives.

OTHER QUALIFICATIONS: Applicant must be less than age 40 at the time of commissioning. Must satisfactorily complete the AF Officer Qualifying Test (AFOQT) prior to selection board and (after selection) pass a Commissioning Physical. Applicant is encouraged to contact SMSgt Bradley Addison @ (315) 233-2147 ASAP to schedule a test. The results must be available prior to scheduling the OSIB. Applicant may apply for position prior to test taking. When selectee is approved for appointment by NGB, attendance of eight weeks at Total Force Officer Training (TFOT) is mandatory.

OSIB: An officer Screening and Interviewing Board (OSIB) is projected to convene TBA to interview and/all qualified applicants.

APPLICATION PROCEDURES: Packages must be received no later than close of business on vacancy announcement closing date. Applicants will prepare and email their application package in a PDF Portfolio to include all of the following:

- Cover Letter
- Resume
- One (1) copy of AF Form 24 - Application of Appointment as Reserves of the Air Force or USAF Without Component
- Unofficial college transcripts
- AFOQT scores
- Last three (3) EPRs if applicable

EMAIL APPLICATION TO BOTH:

rebecca.adamitis@us.af.mil and tracy.gallagher.1@us.af.mil

Please contact SrA Rebecca Adamitis (315-233-2149) or TSgt Tracy Gallagher (315-233-2623) with any questions.
