SPECIALTY SUMMARY

(As outlined in AFOCD)

Operates, secures, configures, designs, maintains, sustains, and extends cyberspace infrastructure; provides and employs cyberspace capabilities; and leads Department of Defense information network (DODIN) operations missions to achieve Commander's objectives in or through cyberspace.

QUALIFICATIONS AND SELECTION FACTORS

Selection for this position will be made without regard to race, religion, color, creed, gender or national origin. Applications are subject to review by the FSS and as mandatory requirements are met, as outlined in applicable regulations, applicants must meet an Officer Screening and Interviewing Board (OSIB). The requirements and qualifications prescribed in this announcement are minimum for nomination for appointment consideration. Appointment is not assured merely by meeting these requirements. Persons considered must further qualify with requirements outlined in AFI 36-2005.

KNOWLEDGE:

- Mandatory knowledge includes information technology, wired and wireless telecommunications, computer networking, cloud architectures, electronics theory, information assurance, data links management, spectrum operations, vulnerability assessment techniques, operating system environments, scripting, operational and tactical planning, and supervisory control and data acquisition systems. Knowledge will include the military application of these technologies as well as industry best practices.

EXPERIENCE:

- Undergraduate or graduate education related to computer science, computer engineering, or information technology is desirable, but not required.

EDUCATION:

- For upgrade to AFSCs 17D2X/3X, unit commander determines proficiency based on performance, experience and completion of minimum training requirements.

DUTIES AND RESPONSIBILITIES:

- Plans, designs, maintains, and operates information networks and cyberspace systems necessary for operations.
- Provides a broad range of cyber-related expertise key to successful warfighting operations in the air, space, and cyberspace domains, to include the electromagnetic spectrum
- Facilitates architectural and technical solutions to operational requirements; vets potential solutions and advises commanders on associated risks and mitigation factors.
- Directs the extension, employment, reconfiguration, adaptation and creation of portions of cyberspace to assure mission success for commanders. This includes both deliberate and crisis action scenarios.
- Develops plans and policies, monitors operations, and advises commanders. Assists commanders and performs staff functions related to this specialty.
- Provides specific cyber-terrain-focused expertise to defensive cyberspace operators to enhance their ability to defend that terrain.
- Advocates for resources when existing resources are insufficient to prosecute assigned missions.
- Develops Primary, Alternate, Contingency, and Emergency (PACE) communications plans to support mission assurance. Manages operations with degraded capabilities while working to reestablish primary ones.

OTHER QUALIFICATIONS: Applicant must be less than age 40 at the time of commissioning. Must satisfactorily complete the AF Officer Qualifying Test (AFOQT) prior to selection board and (after selection) pass a Commissioning Physical. Applicant is encouraged to contact SMSgt Bradley Addison @ (315) 233-2147 ASAP to schedule a test. The results must be available prior to scheduling the OSIB. Applicant may apply for position prior to test taking. When selectee is approved for appointment by NGB, attendance of eight weeks at Total Force Officer Training (TFOT) is mandatory.

OSIB: An officer Screening and Interviewing Board (OSIB) is projected to convene TBA to interview and/all qualified applicants.
