NOTES:
 MAW = Maximum Allowable Weight
 NGB = National Guard Bureau
 1) For every inch less than 60 inches, subtract 2 pounds from the MAW.
 2) For every inch over 80 inches, add 6 pounds to the NGB MAW and adjust for age group.
 3) Measure height in stocking feet (*without shoes*), standing on a flat surface, with chin parallel to the floor. The body should be straight but no rigid, similar to a position of attention. The measurement should be rounded to the nearest inch, using the following guidelines:
 a) If the height fraction is less than ½ inch, round down to the nearest whole number.
 b) If the height fraction is ½ inch or greater, round up to the nearest whole number.
 4) Subtract three (3) pounds for any military uniform – trousers, no blouse or boots - or two (2) pounds for gym clothing.
