a. MEBS LOG has a feature (MAINTENANCE ACCOMPLISHED) to record routine and emergent maintenance. It is imperative that anyone conducting recordable maintenance do so using this feature. This is a new and easier means so that all entries are retained in a single database, to have a record of the maintenance accomplished, by whom, when, and the quantity of repair parts/consumables used.

b. Upcoming Schedule:

- i. 20JUL: USCG Sector New York Change of Command, Staten Island
