Contract Proposal 2013A010 (continued)

Notes:

It is the responsibility of the airport to provide a 1000 gallon propane tank filled with 800 gallons propane for every 8 hours of training. Included with this contract please find a diagram detailing the required equipment needed to attach the ARFF trainer to the propane tank. If you or your propane providers require additional information please contact Joe Teixeira at 269-565-2826. Airport will be held liable for all applicable charges if training has to be cancelled due to propane tank set-up/hook-up issues.

Each department should provide SCBA and PPE for their firefighters. It is the responsibility of the department(s) to bring the apparatus and equipment they would like to train with.

For safety reasons and to assure the quality of our training, each 8 hour section is limited to a total of 40 students. Please be mindful of this when inviting mutual aid departments to attend.

One signed copy must be returned no later than two weeks prior to training start date for training to commence.
