

Companion Guide to: 2021 IDM DST SAAR

For ARNG Users

Introduction

The Logistics Data Analysis Center has produced a System Authorization Access Request (SAAR) guide for requesting Decision Support Tool (DST) permissions for new accounts and role changes.

This companion will assist ARNG users with refining their submissions and help to avoid SAAR rejections.

For additional assistance ARNG users should contact their Lead Materiel Integrator (LMI) listed on the LMI POC list found on [GKO](#). NGB users should contact the LGS Item Management team.

If you only need DST Viewer access you can go directly to [DST](#) without submitting a SAAR.

Accessing the 2021 IDM DST SAAR

- Login to the AESIP HUB Enterprise Identity Management ([IDM](#))
- The guide provided from LDAC is available on the [DST Document Library](#)
- Follow the steps in the guide to update your supervisor and security officer information
- When you get to the 'Request DST Access' part of the guide (LDAC slides 13-20) you may refer to the remaining slides of this companion to assist in completing your request

State, Territory, and D.C. Users

If you only need Viewer access you can go directly to DST without submitting a SAAR

- Contact your LMI POC(s) for assistance with the following information
 - (LDAC Slide 18) Which Role do you need [LMI DST – Vetter] or [LMI DST – Planner]
 - (LDAC Slide 20) For the Justification box enter your Office and Position, your required Force Access Set (FAS), and your required Vetting Level
 - A FAS is a DST Supply Set used to assign your access to your required UICs
 - Examples: _NGB ALABAMA or #NGB_AL_711TH BSB

NGB Item Managers and Systems Integrators

- (LDAC Slide 18) Choose LMI DST – Planner
- (LDAC Slide 20) For the Justification box enter your Office and Position and copy and paste: “Instructed by NGB DST Administrator to request Force Access Set: _NGB ALL (including COMPO 2 Supply Pool) and Vetting Level: ACOM”
